## EXPERIENCE

- **Data Science Intern** (Devtern)  
(Feb 2024 - Apr 2024 (3 months))
  - Utilized Python for data analysis, building machine learning models, and developing data pipelines for large datasets. Created visualizations using Matplotlib and Seaborn to convey insights. Collaborated with cross-functional teams to implement data-driven solutions, documented reproducible code, and applied continuous learning to stay current with data science and machine learning advancements.
- **Marketing Intern** (Viral Fission)  
(Oct 2021 - Ongoing)
  - As a Team Lead at Viral Fission, I supervised and mentored interns and junior developers by allocating tasks, monitoring project deliverables, and ensuring alignment with timelines and objectives. I managed project plans, which included sprint planning, resource allocation, and risk assessment. Additionally, I prioritized team development through performance evaluations, mentorship, and skill-building initiatives. This role enhanced my leadership acumen and strategic project management proficiency..

## PROJECTS

- **ConvoConnect - Bridging Conversations Through AI** (Major Project)  
(Apr 2024 - Present)
  - Utilized AI and NLP to streamline recruitment by automating resume shortlisting, conducting AI-driven virtual interviews, and performing sentiment analysis. Developed a robust rating system to assess qualifications, skills, and cultural fit, ensuring efficient and objective talent acquisition.
  - Skills: Spacy3, Machine Learning, Natural Language Processing (NLP), MySQL, FastAPI, Project Management, Python, MATLAB, DeepFace, FastAPI, OpenAI, POSTMAN, React.
- **Apiary** (Minor Project)
  - Engineered APIARY, a structured library that streamlined access to over 500 APIs and modules; enhanced learning efficiency for more than 300 CS students by providing real-time documentation updates on modern technologies.
